FEATURING HYDROFUSION TECHNOLOGIES • VIBRATION MASSAGE • LIQUID VITAMINS FOR THE LIFE OF YOUR SKIN

WWW.WELLNESS-USA.COM

World's First Advanced Hydration Wellness

CocoonAqua IR™ is the first revolutionary whole body hydration system that provides the skin surface with energizing deep heat, topical, soothing moisture and powerful infrared steam, liquid vitamins solutions. Fitness, wellness services, and salon owners are challenged to offer innovative and fresh new services that set them apart from the growing competition without having to endure expensive build-outs, incorporate indoor plumbing, absorb escalated liability insurance or hire new training personnel for hands-on services. In short, body hydration & wellness services owners are searching for ways to offer more without having to completely change their existing business model.

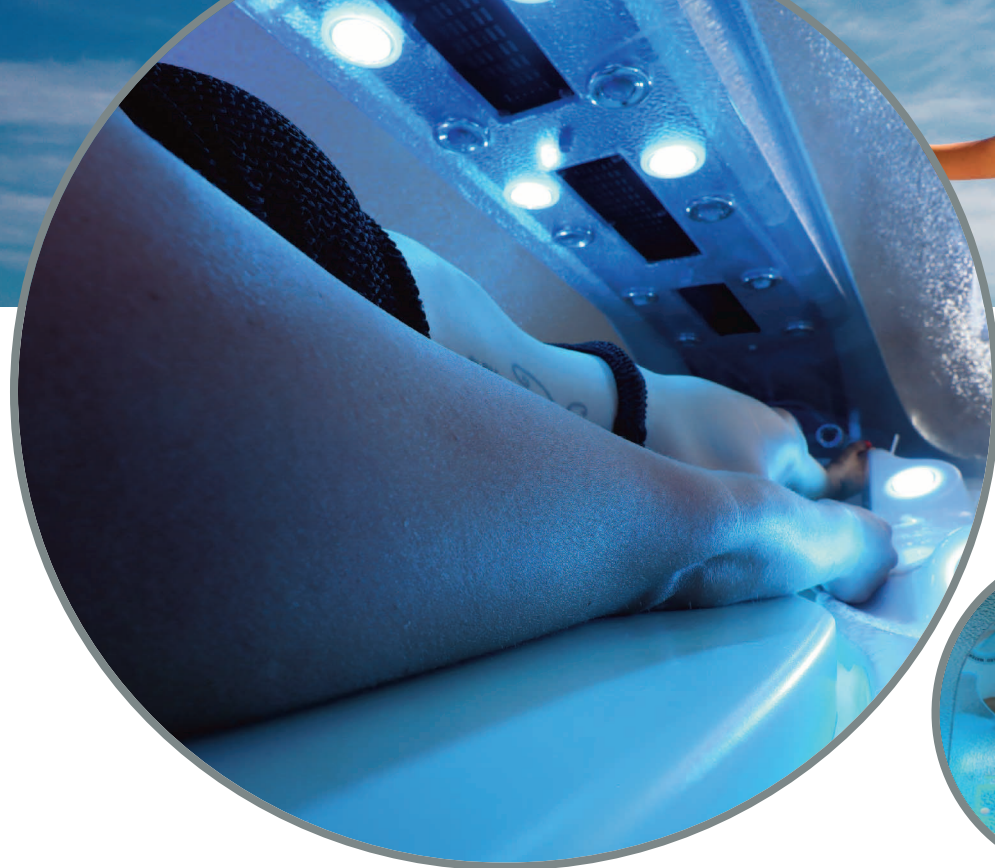

CocoonAqua IR™ was designed to exceed your expectations by integrating flawlessly into your existing business model. **CocoonAqua IR™** is the key to retaining existing clients with new indulgent and luxurious personal services. **CocoonAqua IR™** can help drive retail sales and membership sales and attract new clientele looking for ways to offer a new body services with skin wellness, natural whole body fitness and relaxation solutions.

Deluxe Color LCD Display operated via a touch button control panel, the sleek multi-language display offers 3 pre-set and 1 custom programs as well as various upgrade options (including Video-DVD applications).

Translucent Exterior Shell constantly changes its look as it reflects and glows from the surrounding ambient light or its own Colorbath™ Chromolights system via the pebble-grained, translucent shell, making it a beautiful and stunning focal point for any spa decor.

Stereo Ready for the ultimate relaxation experience, 150 W waterproof speaker which can be easily connected to any audio source. A headphone jack also included.

A Powerful Infrared Hydration Pod

Radiant IR + Infused Steam + Liquid Vitamin Oxygen Science™ Concentrates

The two heat sources are harmonized to provide a combination of penetrating radiant heat with a blanket of heated steam. A wide selection of liquid vitamins, natural herbs, and specialty solutions are infused into the steam vapor for topical absorption by the skin. This extraordinary 4-in-1 breakthrough system will bathe your clients in steamed liquid vitamins and relax and leave them with beautiful, radiant-looking baby soft skin.

After my **CocoonAqua™** herbal cleansing & IR steam session, I have more energy, my skin all over my body feels ultra clean, super soft, and looks glowing!

— **ADM, Skin Brite Esthetician,**
Los Angeles, CA

Infrared & Wellness Benefits

- Optimize Wellness
- Enhance Mental Acuity
- Increase Energy
- Natural Cleanse
- Whole-Body Hydration
- Moisturize & Deep Cleanse
- Weight Management

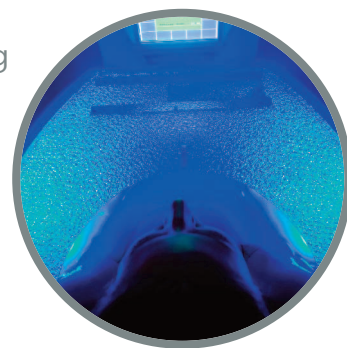

FEATURES

4 CHROMOLIGHTS™

Red / Green / Yellow / Blue (R/G/Y/B)

Emanating from the translucent pebble-grain shell, the mood enhancing Chromolights' glow will put your client in a total state of harmony and balance. By combining color sessions with other spa services, their effects are dramatic. Each one of the pre-set programs features a different Colorbath™ with random color changes and multicolor cross fades made up of all the colors of the spectrum, from soothing and relaxing, to balancing and energizing.

Color Therapy Lighting:

The Spa Pod's four LED lights (Red, Green, Yellow, Blue) provide a customizable chromotherapy experience. Each color promotes specific wellness benefits — from deep relaxation and calm to revitalization and energy balance — enhancing both the mind and body during each session.

Hydrofusion technology lets you harness natural energies either individually or in perfect synergy. The remarkable **Cocoon Aqua** represents an engineering breakthrough—blending radiant heat and steam into a single, harmonized system that delivers deep rejuvenation and hydrated skin.

CocoonAqua™ Hydrofusion™ is an extraordinary engineering breakthrough that unites far infrared heat and steam into a single, synergized energy system. This innovation allows you to experience the benefits of these natural energies either individually or simultaneously. As body temperature rises, the skin begins to perspire, helping to cleanse pores, release impurities, and promote deep hydration. This process supports healthy weight management, encourages balanced nutrition and hydration, and enhances overall wellness. Together, these powerful elements work in harmony to optimize detoxification, moisturization, and physical fitness—while also promoting relaxation, stress reduction, and better sleep quality.

■ **Infrared:** The infrared emitters are engineered to produce comfortable heat within the far infrared category.

■ **Steam:** Moist heat is gentler on the body than the dry heat of a sauna because it softens the skin as it opens pores and stimulates perspiration. Herbs or essential oils infused into steam will enhance the results. **CocoonAqua™** features adjustable temperature steam for body and skin therapy (up to 48°C/118°F).

■ **Mist:** A light mist is instantly dispersed over the body via the touch of a button; if desired, you can add minerals and vitamins to the mist, creating an added treatment with nutrients similar to natural hot springs therapy services.

■ **Vitamin/Mineral System:** Dispenses nutrients such as vitamins and minerals into the mist stream allowing skin to transdermally drink up the nourishment. The mist system can have the same benefits as a mineral springs bath.

■ **Radiant Heat:** Radiant heat emitted into the body chamber delivers penetrating & soothing ambient warmth.

■ **Chromolights:** State-of-the-art digital lighting technology and multiple, chromotherapy light stations to generate a variety of rich and atmospheric colored lights.

■ **Vibratory Massage Bed:** Engage all of the body's systems to work in unison toward the goal of systemic harmony. Cradling the body, the ergonomically-designed support bed features a patented massage vibration system featuring continuous and pulsating vibration to stimulate the body.

■ **Adjustable Cool Facial Air:** Meet the comfort needs of your clients and cool their face and head while their whole body is deeply heated and infused with hydration.

■ **Oxygen Ready:** Designed with a built-in connection port for the OxyOasis oxygen system, enabling optional oxygen-enriched treatments with no additional setup.

■ **Touch-Free, No Attendant Required:** A completely automated experience that lets your guest relax and rejuvenate without any physical contact or staff involvement.

■ **No Plumbing Required:** Just pour in 1 gallon of distilled water and empty the container after each session. It's that simple — no plumbing, no hassle.

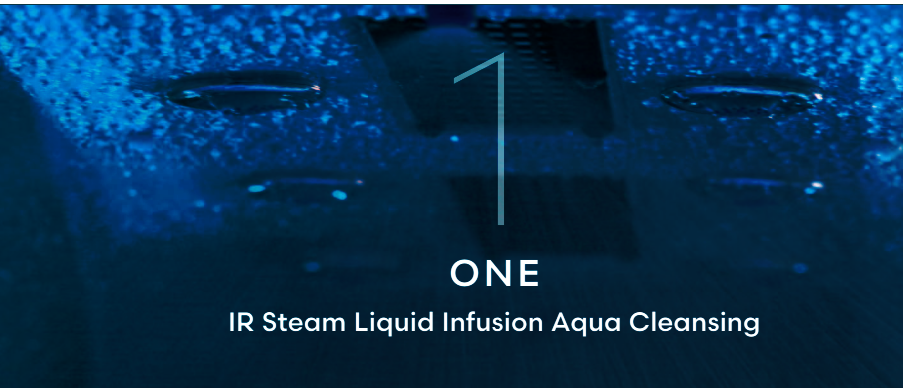

■ **Aromatherapy:** Two unique aroma reservoirs that vaporize essential oils and herbal extracts to awaken olfactory senses and to enhance results and enjoyment. Pure essential oils and herbal essences stimulate the body through the sense of smell. Aromatherapy essential oils and herbal extracts may be combined to achieve customized results. Promotes relaxation and sleep management as well as stress management.

■ **Liquid Vitamin Solutions Infusion System:** Specialty formulas and solutions are time-released into the steam system to infuse and penetrate the skin. **Oxygen Science Concentrates:** Hydrate/Aloe, Cleanse/Mineral Melanin, Glow - E&C, or CoQ/Weight Management. Add one ounce (3 capfuls) of selected formula and pour into the diffusion reservoir each session.

Moisturizing
Liquid Vitamins
for the Life of Your Skin.

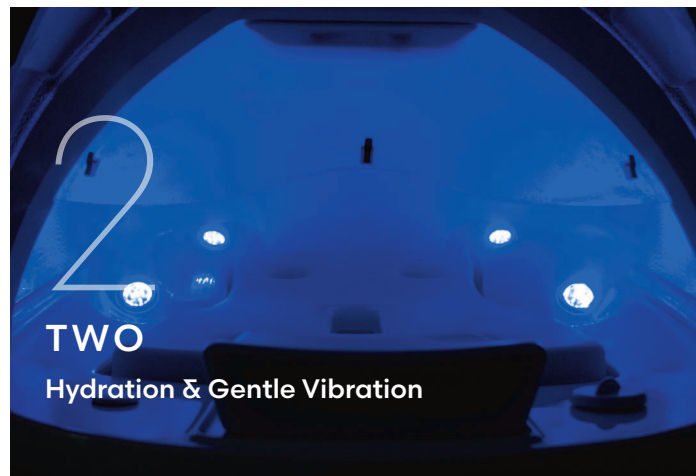

Relax. Rejuve. Recover.

“ CocoonAqua IR 4-in-1 technology system is perfect for my business. My clients love the rejuvenating Oxygen Science™ liquid vitamin concentrates and the Hydrofusion™ steam infrared infusion is amazing. I like how easy it is to customize each session for my clients' needs with just 3 cap fulls of highly concentrated solutions per session.

It's 100% All Natural & Gentle.
