RelaxWell POD Deluxe™ Advanced Fitness & Wellness Technologies

RelaxWell POD DELUXE™ the software enables the user to adjust the cabinet temperature to any desired level, ranging from ambient room temperature up to 192°F (90°C). The warmed air flows downward to the body from a pattern of hood ports while fans draw the warm air currents equally across the body in a flow that creates the desired temperature level and helps the sauna chamber increase core (body) temperature. As the body responds to the warm chamber environment, the relaxing release of body heat triggers the increase of wellness and fitness cleansing perspiration.

DYNAMIC CONVECTION DRY HEAT

RelaxWell POD Deluxe™ dry heat air system utilizes a powerful fan and proprietary shower" heat port configuration that circulates a dynamic vortex of warm air throughout the body chamber by means of convection. The air inside the cabinet is heated and dispersed, evenly and safely.

RADIANT INFRARED (IR) HEAT

Users can use the infrared wellness heat system separately or together with dry heat air for the healthy activity of whole body passive thermal exercise (PTE). The IR heat energy is absorbed by the water in the body tissue and transmitted by conduction.

Many users enjoy infrared heating because radiant infrared heats the body without heating the air inside the body chamber. When the infrared heat system is used without the dry heat air system, the air inside the cabin remains relatively cool and users can receive passive thermal fitness benefits without heating the air itself. The **RelaxWell POD Deluxe™** dual heat system with radiant infrared is unique for a superior wellness experience. The dual combination of a dry heat air convection system and a radiant infrared heat conduction system is a unique and patented **RelaxWell POD Deluxe™** wellness feature.

BUILT-IN HEATED BED SYSTEM

Users can use the infrared wellness heat system separately or together with dry heat air for the healthy activity of whole body passive thermal exercise (PTE). The IR heat energy is absorbed by the water in the body tissue and transmitted by conduction.

CUSHIONED ERGONOMIC WITH SOOTHING DUAL VIBRATION MASSAGE BED

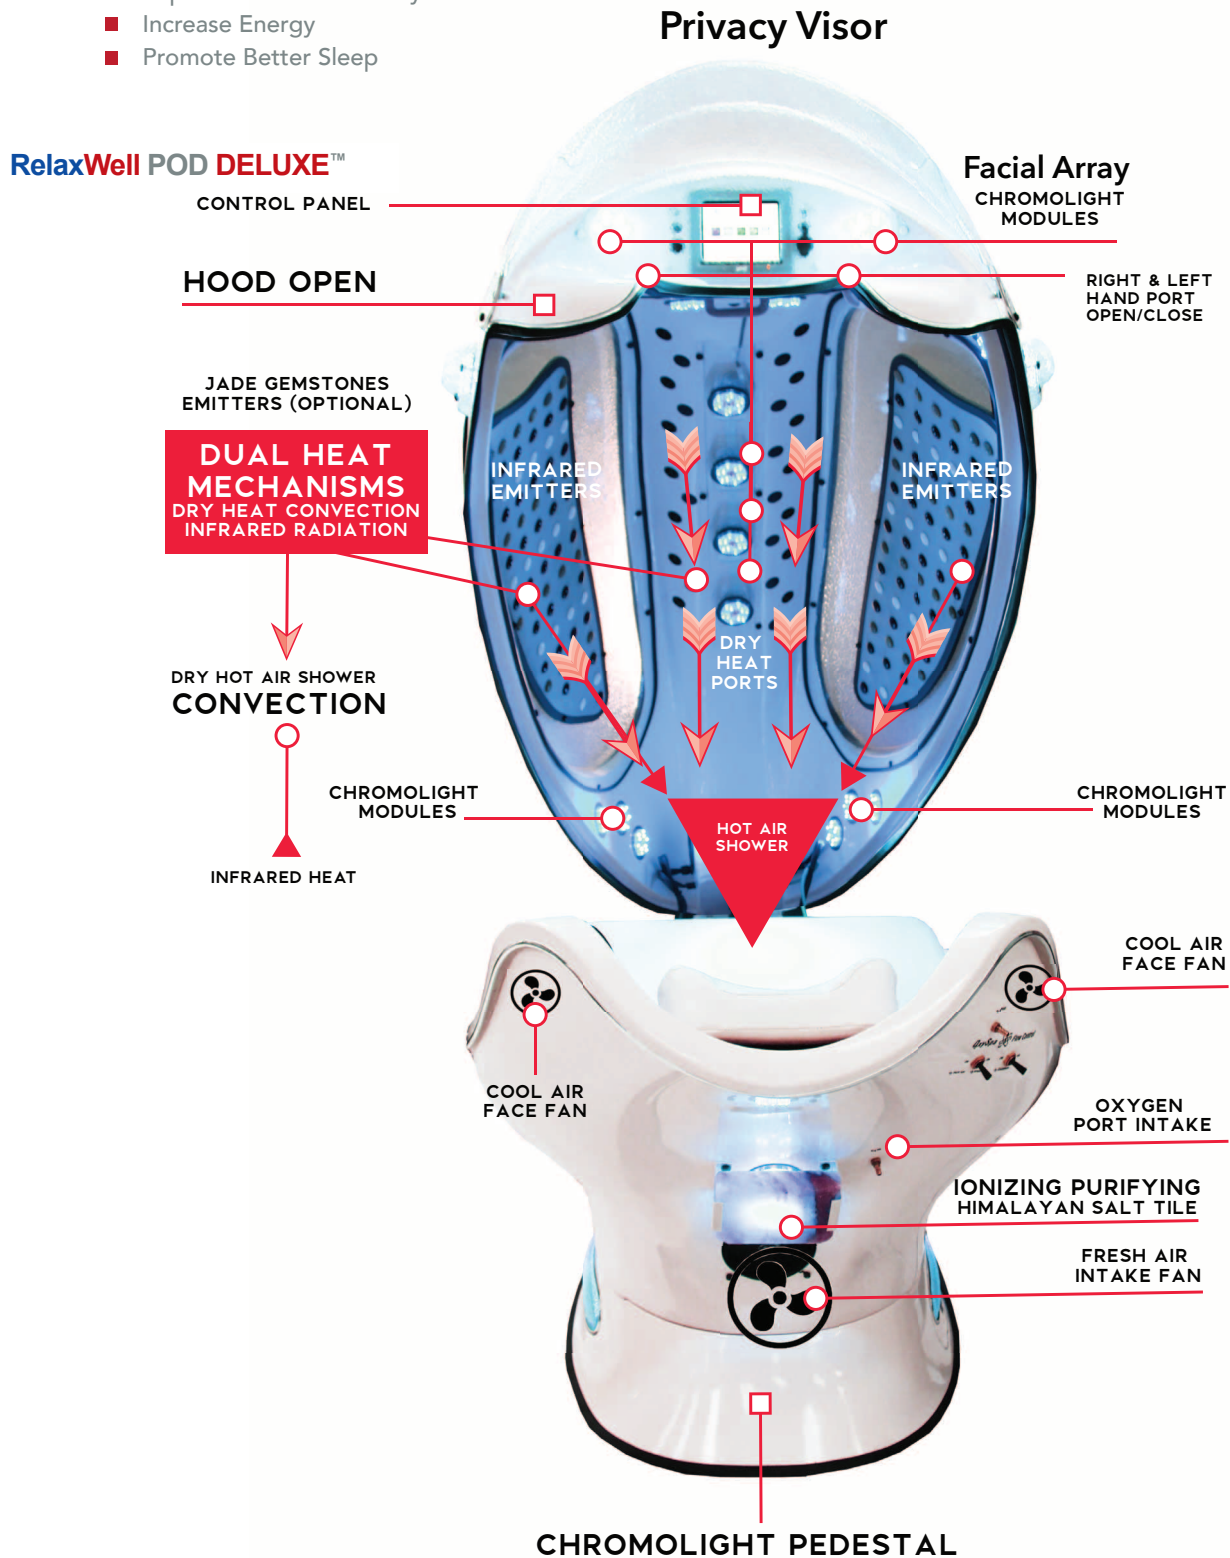

Dual vibration transducers located under the cushioned ergonomic bed can be controlled and adjusted to achieve soothing and invigorating back and leg massage or customized massage vibration. The massage intensity settings can be adjusted from low, mild, strong, intense to maximum vibration. Users can select their own personal vibratory massage levels for stress management, relaxation, soothing aching muscles, sleep management or refreshing power naps.

RelaxWell POD's Dynamic Heating System & Special Features

BENEFITS OF INFRARED HEAT

- Feeling Refreshed After each Session
- Invigorating & Cleansing Sweat
- Improve Fitness Recovery
- Increase Energy
- Promote Better Sleep

RelaxWell POD Deluxe™ has four (4) advanced Chromolight Features: Facial Array, Body Chamber and the Illuminated Designer Pedestal & Glowing Salt Tile

BENEFITS OF CHROMOLIGHT:

Choose Red, Yellow, Green, Blue or any R, Y, G, B, Colorful Combination

- Beauty Regimen
- Athletic Recovery & Performance
- Mental Clarity & Mindfulness
- Promote Better Sleep & Relaxation
- Improved Fitness & Wellness
- Stress Relief
- Mood Enhancement

BODY CHAMBER AMBIENT MULTICOLOR CHROMOLIGHTS & FACIAL AMBIENT CHROMOLIGHTS SYSTEM

RelaxWell POD DELUXE™ has a total of twenty-two (22) colorful chromolight module stations built into the body chamber & facial area as well as the Himalayan salt tile system, exterior handles and designer pedestal. Each light module station has non-thermal multicolor and near infrared chromolights. The four primary colors can be combined and blended to achieve a palette of colorful hues. The independent Body and Face ambient multicolor modules can be auto-programmed, synchronized in tandem or separately controlled to simultaneously provide different colors to the body chamber or the facial area. **RelaxWell POD Deluxe™** translucent windows are pebble-embossed to refract the colors of the colorful chromolights like a prism to sparkle, excite & enhance the mood and ambience of every session.

Many users enjoy infrared heating because radiant infrared heats the body without heating the air inside the body chamber. When the infrared heat system is used without the dry heat air system, the air inside the cabin remains relatively cool and users can receive passive thermal fitness benefits without heating the air itself. The **RelaxWell POD Deluxe™** dual heat system with radiant infrared is unique for a superior wellness experience. The dual combination of a dry heat air convection system and a radiant infrared heat conduction system is a unique and patented **RelaxWell POD Deluxe™** wellness feature.

CHROMOLIGHT ILLUMINATED DESIGNER PEDESTAL

A matching illuminated Chromolight Pedestal designed specifically for the **RelaxWell POD Deluxe™** raises the POD 7" in height. The matching translucent privacy visor can be extended over the head & face for greater seclusion and serenity.

Better Fitness. Better Wellness. Better Life.

ADJUSTABLE HEAT CHAMBER | RADIANT INFRARED | HEATED WHOLE BODY VIBRATION MASSAGE | OXYGEN | COOLING FACE AIR FAN

RelaxWell POD Deluxe™ Twenty-Two (22) Wellness & Fitness Technologies

RelaxWell POD has both a Non-Strenuous PASSIVE Thermal Exercise (PTE) or adjustable high performance ACTIVE Thermal Exercise (ATE) system. The RelaxWell POD includes a patented built-in exercise fitness system featuring dynamic isotonic-isometric resistance bands with cushioned grips.

INTEGRATED FITBED™ ACTIVE THERMAL H.I.I.T. EXERCISE (ATE) SYSTEM

RelaxWell POD Deluxe™ Users can perform High-Intensity Interval Training (H.I.I.T.) exercises while enjoying Active Thermal Exercise for enhanced hyperthermic conditioning fitness, and wellness benefits. Exercise resistance bands provide from low to high resistance for all levels of fitness sessions, from poorly conditioned or out-of-shape beginners, intermediate routines and elite professional athletes. You can practice heated stretching, flexibility general mobility, increased flow of Qi energy and yoga poses too!

JADE COMFORT MAT

Lustrous Jade is the perfect body relaxation mat for your wellness services. Jade Comfort Mat contains 96 large (1.5" diameter) beautiful semi-precious genuine Jade gemstones.

AROMATHERAPY SYSTEM

The RelaxWell POD Deluxe™ aroma system has 4 separate diffusers which enables users to choose essential oil scents for heightened blended aromas of vigor, health, relaxation, or cleansing aromatherapy enjoyment and enhanced wellness protocols. Scented air flows over the body and face and fills the air in the body chamber. The user's olfactory senses will enjoy the enhancement of ambience and mood sessions. The sensory experiences of aromatherapy include relaxation, health, beauty and total well-being.

HIMALAYAN PURE IONIC CRYSTAL SALT

RelaxWell POD Deluxe™ users can experience similar enjoyment of traditional natural mineral-salt caves found in Europe and salt rooms which have recently emerged across the United States. A (6" x 6") tile of Himalayan pure ionic crystal salt is mounted near the air intake fan to provide refreshing salt air. Salt air or "Halotherapy" has long been practiced as a traditional holistic wellness experience and the POD becomes the user's very own salt cave.

RelaxWell POD Deluxe™ (Active Thermal Exercise Fitness) FIT-BED

RelaxWell POD Deluxe™ Fit-Bed integrates four (4) leading exercise concepts with dual Hyperthermic Dry Heat & Radiant Infrared Heat:

- European calisthenic vibration platform muscle soothing exercises;
- Radiant IR heat for Isometric and Isotonic strength & flexibility exercises;
- Radiant IR heat for Yoga stretching, flexibility, breathing and mindfulness exercises;
- Dry Heat air (Scandinavian & Radiant IR) acclimation for increased strength, fitness and improved endurance.

RelaxWell POD Deluxe™ Cooling Multi-Color Facial Lights with two (2) Ambient Chromolights & Pre-set Programs

RelaxWell POD Deluxe™ Facial Array has mood enhancing ambient Chromolights and a cooling air face fans for you to choose to relax or meditate or a simple illuminated light facial. Enriched Air OxyOasis™ System can enhance all your sessions.

The RelaxWell POD Deluxe™ includes turbo body & face fans and air intake ports that is oxygen ready for use with the optional stand-alone OxyOasis™ concentrator. You can choose to fill the body chamber with enriched air that will refresh and cool the user's face while cooled by the face fans. The Optional enriched-O2 air system can also be enhanced with humidity, salt air and/or aromas. A facial sprayer system is also included for facial services enhanced with enriched air while the user experiences whole body wellness sessions.

The independent Body and Face ambient multicolor modules can be auto-programmed, synchronized in tandem or separately controlled to simultaneously provide different colors to the body chamber or the facial area. RelaxWell POD Deluxe™ translucent windows are pebble-embossed to refract the colors of the colorful chromolights like a prism to sparkle, excite & enhance the mood and ambience of every session.

Healthy Lifestyle & Wellness Activity for Everyone

COMFORTABLE & COOLING FAN AIR SYSTEM – ENSURES THE HEAD & FACE ARE COOLED

RelaxWell POD Deluxe's innovative design keeps the head outside the heated chamber during the session while flowing, refreshing salt-air helps purify the air and cools the head and facial areas. While most people can only endure a few minutes in an enclosed sauna, the cooling face fan keeps the face, head and hair cool. The face fan lets you experience and enjoy the benefits of the Dynamic Dual Heat System inside the POD (up to 192°F/90°C) for extended periods of time.

Interactive Guided Reality Suites

The smart wellness software includes a series of motivational images and messages conducive to body and mind wellness applications. The user can select from eScapes™ imagery for entertainment, information and visual enhancement of their wellness goals.

Interactive Guided Reality

RelaxWell POD **Deluxe's** color LCD controls an interactive wellness technologies and exercise modalities integrated with visual imagery to enhance a myriad of wellness applications. The **RelaxWell** POD **Deluxe** is the first personalized delivery system in the world to integrate wellness guided imagery with the physical modalities of convective dry heat, radiant infrared heat, massage vibration, aromatherapy and exercise resistance tubes. The proprietary eScapes™ software enables users to enhance and precipitate a positive psychologic and physiologic wellness response with visual wellness images synchronized to guide long-term and short-term memory for use of the mind to enhance physical function and promote overall well-being. Interactive guided imagery facilitates and complements a variety of holistic wellness programs with specific exercises, specific modalities and specific images.

Guided Reality Images:

Relaxation scenes, Fitness Exercises, Weight Management guidance, Pain Relief, Yoga & Flexibility & Positive Inspiration.

Wellness Applications:

Stress Management, Weight Management, Fitness Programs, Sleep, Muscle Relief, Body Esthetics, Mobility & Flexibility, Body & Mind Well-Being, and Athletic Peak Performance.

Relaxation & Fitness

The visual eScapes software utilizes a beautiful array of engaging images for soothing relaxation suites while the user enjoys the warmth and comfort within the heated chamber. Users can select from eight (8) different categories of relaxing images (i.e. beach scapes, desert scapes, floral scapes, night sky, etc.) to enhance the session with the power of guided reality imagery.

eScapes Fitness

RelaxWell POD's new visual eScapes software enables you to experience fitness training for any fitness level while enjoying an RelaxWell POD Deluxe session.

The RelaxWell POD DELUXE includes a patented builtin exercise fitness system featuring dynamic resistance bands of two different resistance levels with cushioned grips

The exercise program combines heat (**Hyperthermic Conditioning**) with high-intensity interval training (HIIT) for the ultimate in fitness efficiency and efficacy. With the **FIT-Bed Guided Workout** sessions users can perform **High Intensity Interval Training (HIIT)** exercises (Active Thermal Exercise) while enjoying their POD sessions for improved fitness and heat acclimation. During your session, you will be instructed on the appropriate exercises, number of repetitions and duration of rest periods for your fitness level (beginner, intermediate or advanced). Exercise resistance bands can be easily and quickly changed to provide from low to high resistance for all levels of fitness sessions, from beginner to elite professionals. The **RelaxWell POD Deluxe™** hyperthermic-fitness exercise system encourages a healthy fit lifestyle and users can experience wellness benefits.

Hyperthermic  Conditioning

Hot Yoga / Flexibility / Mindfulness

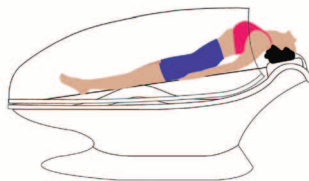

Visual Instructions for 20 Yoga Poses

RelaxWell POD Deluxe's new visual eScapes software enhances your yoga practice with a series of visual instructions and images displaying a number of yoga/flexibility postures and breathing exercises conducive to the heated environment of the RelaxWell POD Deluxe™. Instructional and motivational messages and images are displayed on the color monitor to guide you as you perform these effective hot yoga mindfulness movements.

Modified Fish Pose

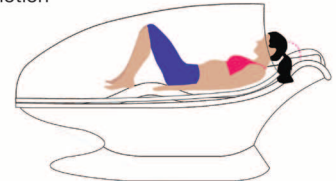

- Arch lower back using hands and forearms for support.
- Keep head and shoulder flat on bed and hold for 30 seconds.

YOGA & FLEXIBILITY

Abdominal Burst

- Lift head, arms, and hands slightly off bed keeping eyes toward ceiling.
- While exhaling, contract abs and push fingers slightly toward toes.
- Move back into starting position and repeat 30 times in a fast-repetitive motion

YOGA & FLEXIBILITY

P.20

Better Fitness. Better Wellness. Better Life.

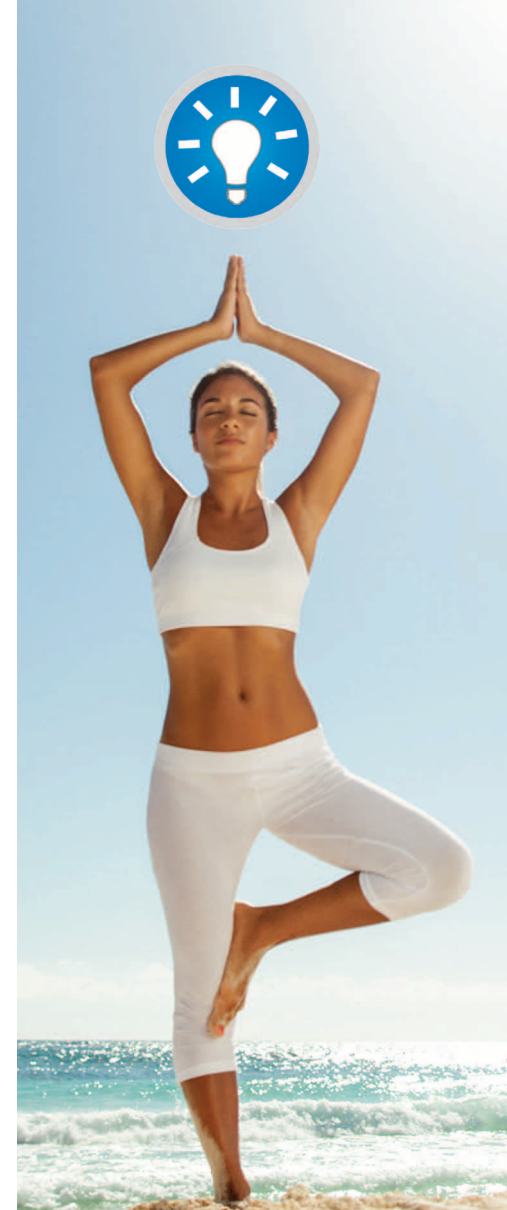

Positive Inspiration

RelaxWell POD Deluxe™ includes short, positive and uplifting quotations and inspirational messages that are beautifully displayed in sequence to help complement and enhance serene mindfulness and inspiring motivation while enjoying a Wellness session. The user can choose from two sets of Positive Inspiration messages and pause the images at any time for greater reflection or allow the auto-sequencing of the entire suite.

Muscle Relief

Visual messages present thoughtful statements, meditations, tips and choices intended for helping enhance awareness of healthy lifestyle skills to help fitness recovery and relieve aching muscles, and/or may help to enhance wellness and living well by encouraging healthy activities and mindfulness.

eScapes Weight Management

Two guided image suites of weight management information slides - **HEALTHY CHOICES** or **WELLNESS LIFE STYLE**, provide colorful and interesting visuals with healthy lifestyle quotes and facts about how to promote or maintain a healthy weight, encourage healthy eating, or assisting with weight loss goals. The suites auto-sequence during the wellness session or can be paused for reflection or visual enjoyment.

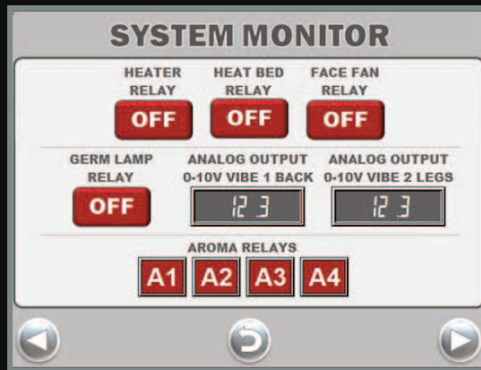

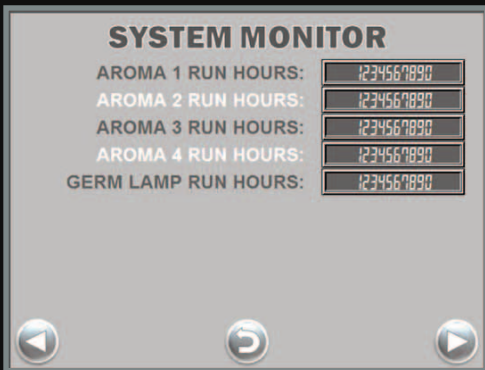

Your body hears everything your mind says.
Stay positive.

Engineering System Hidden—Business Data Screen

The advanced *RelaxWell* POD **Deluxe**™ software now includes an array of useful engineering system screens for business tracking, data collection and technical support.

- Continuous display of run hours for the entire system and all key features including dry heat system, infrared heat system, face fan, vibration system (upper and lower), body lights, face lights, and aromatherapy system;

- System data collection monitors (relays for heaters, face fan, lights and aromas)

- Time default settings, T-Max settings, F/lbs or C-kgs, calorie display.
