Why Choose SaunaWellness™ PRO 3 Infrared Saunas?

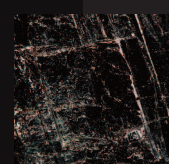

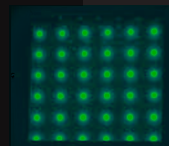

SaunaWellness™ PRO's Infrared wavelength, 3 Chromolight stations, and Multiple gemstones deliver a premium wellness experience.

Soft Radiant Infrared Sauna Heaters allows the user to experience soft and comfortable whole body radiant sauna heat. Carbon Heaters are placed near the back, sides, and floor of the sauna to maintain a slow and even warmth. Finally, IR Heaters are placed on the sides of the sauna to provide immediate warmth within the sauna.

Chromolight Stations (Red, Green, Blue) for ambient lights beautifully illuminate the sauna chamber.

Jade & Tourmaline Gemstones are Incorporated into our wellness saunas. When heated, these gemstones are known as one of the few precious stones to conduct Infrared heat.

Stylistic Wood Craftsmanship & Exclusive Sauna Design have been integrated into each wellness sauna.

Wood Density Factor - The high density of wood and expert craftsmanship found in the SaunaWellness is the true mark of a premium sauna. Each heater is covered with multiple vertical slats to protect the heaters, enhance the safety for all users and offer a beautiful lustrous look.

Equally important is the type of wood you are using in each sauna system. The Canadian Hemlock used in every SaunaWellness IR-PRO 3 has become increasingly popular for sauna use due to its strength and wear-resistance keeping your sauna looking good for years to come.

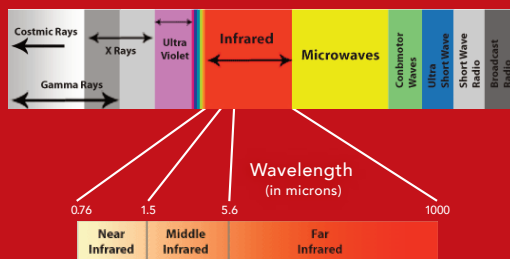

Easy Installation - Our sauna is easy to assemble and requires no additional tools. It can be installed on any type of flooring and only requires a dedicated 20 amp outlet.
