Premium Luxury Wellness Infrared Saunas

Why Choose SaunaWellness™ PRO 5 Infrared Saunas?

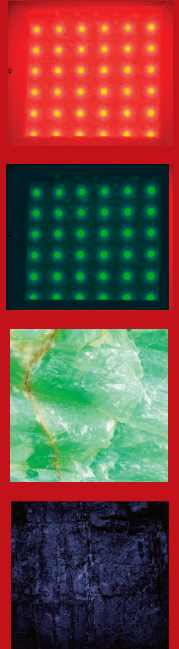

SaunaWellness™ PRO 5's Infrared wavelength, 5 Chromolight stations, and Jade gemstones deliver a premium wellness experience.

Soft Radiant Infrared Sauna Heaters allows the user to experience soft and comfortable whole body radiant sauna heat. Carbon Heaters are placed near the back, sides, and floor of the sauna to maintain a slow and even warmth.

Eight Colors (Red, Blue, Green, Yellow, Pink, Purple, Orange and Full Spectrum White) beautifully illuminate the sauna chamber.

Jade, Black Bian & Pink Ferric Oxide Infrared Gemstones are incorporated into our wellness saunas. When heated, these gemstones are known as one of the few precious stones to conduct infrared heat.

Stylish Wood, Craftsmanship & Exclusive Sauna Design have been integrated into each wellness sauna.

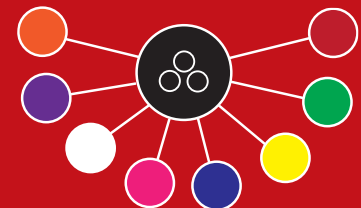

Wood Density Factor - The high density of wood and expert craftsmanship found in the SaunaWellness is the true mark of a premium sauna. Each heater is covered with multiple vertical slats to protect the heaters, enhance the safety for all users and offer a beautiful lustrous look.

The Canadian Hemlock used in every **SaunaWellness PRO 5** has become increasingly popular for sauna use due to its strength and wear-resistance keeping your sauna looking good for years to come.

Easy Installation - Our sauna is easy to assemble and requires no additional tools. It can be installed on any type of flooring and only requires a dedicated 20 amp outlet.

SaunaWellness™ PRO 5 Advanced Infrared Heat

SaunaWellness™ PRO 5's Infrared heat has been patented and differs from traditional infrared systems, dry heat or steam system heat because it combines 11 natural energies for multiple wellness benefits; the **PRO 5's** heat is effective at a lower operating temperature (150° vs 200° for a traditional sauna) to offer greater comfort and ultimate wellness experience. **SaunaWellness™ PRO 5's** infrared heaters provide mid and far infrared heating.

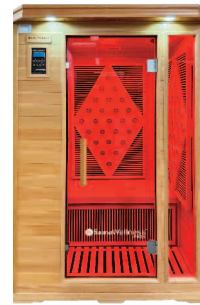

Mid (MIR) Infrared Heat
Far (FIR) Infrared Heat
